BRIEF INTRODUCTION

"Hi, I'm a front-end developer who can code all day without getting tired."

I started my career as an English teacher. I had been teaching English for about 5 years until the pandemic arrived. At that difficult time, I had to manage how to earn money from home. That's why I found programming was extremely amazing and it satisfied my passion for using computer day by day.

In the past year, I have been very focused on learning front-end web programming. Now I am very confident that my abilities can meet your requirements.

PROJECTS
